WHY GLOBAL PRO?

We specialize in exporting seafood from Mexico into the USA, Canada and other countries. We have direct contact with the fishermen and we control the freshness of our products from the ocean to the factory, the processing, packing and shipping for all the items that we import directly into the USA.

We offer custom presentations and packing to our customers and we will always comply with all the food compliance requirements.

NAMIBIAN CLUSTERS CRAB (Chaceon Maritae)

Also known as the Red Crab, this crab is caught off the coast of Namibia at depths between 600 meters and 800 meters, and is fished throughout the year.

Pots are used for fishing, thus respecting the seabed.

Once captured, it is processed and frozen on board using tunnel freezing at -40 C.

This process takes less than 6 hours.

Thus guaranteeing the freshness of the product.

Formats: sections and clusters in 6x3kg and claws in 6x3.5 kg

All at a fixed weight.

XL	3-4 pcs/kg	From 250 - 335 gr
L	4-5 pcs/kg	From 200 - 250 gr
M	5-6 pcs/kg	From 165 - 200 gr
S	6-8 pcs/kg	From 125 - 165 gr
